

Twist-R-Lock Cup Retainer System

Bread Depanner Suction Cup Retainers are a vital necessity to many bakery operations. We have revolutionized the industry with the Twist-R-Lock Cup Retainer System. These suction cup retainers provide the most time efficient method of installing and removing both the cup and retainer. Our unique "twist-in" feature will reduce your maintenance down time with rapid insertion and removal of retainers and suction cups. Insertion tool available for purchase separately.
